Implementation Timeline

May 2010
In March, President Obama signed into law the Patient Protection and Affordable Care Act (PPACA) and the Health Care and Education Reconciliation Act (HCERA), which made modifications to the PPACA. Together, this historic legislation constitutes the largest change to America’s health care system since the creation of Medicare and Medicaid.

To help hospitals understand the numerous provisions, programs, pilots and deadlines associated with implementing the health care reform legislation, the AHA developed this detailed timeline exclusively for our members. It graphically depicts key milestones in three-month increments from 2010 until 2020 and organizes the legislation into the following sections.

**Consumers and Purchasers:** The new law expands coverage to 32 million people through a combination of public program and private-sector health insurance expansions. Key insurance reforms include a mandate for individuals to have insurance; employer responsibility to provide or contribute to health insurance; low-income subsidies to help individuals purchase insurance; an expansion of Medicaid eligibility; and the creation of state-based health insurance “exchanges.”

**Payment and Revenue:** The law takes a number of steps to reduce the rate of increase in Medicare and Medicaid spending through reduced payment updates, decreases in disproportionate share hospital payments, and financial penalties. The new law is financed by taxing high-premium health insurance plans, raising the Medicare tax for high-income individuals and imposing annual fees on the pharmaceutical, medical device, clinical laboratory and health insurance industries.

**Delivery System Reform and Quality:** The law adopts several key delivery system reforms to better align provider incentives to improve care coordination and quality and reduce costs. These reforms include value-based purchasing; pilot projects to test bundled Medicare payments; voluntary pilot programs where qualifying providers – including hospitals – can form Accountable Care Organizations and share in Medicare cost savings; and financial penalties for hospitals with “excessive” readmissions.

**Wellness and Workforce:** The law provides grants and loans to enhance workforce education and training, to support and strengthen the existing workforce, and to help ease health care workforce shortages. It requires public and private insurers to cover recommended preventive services, immunizations and other screenings with zero enrollee cost sharing. It also initiates policies to encourage wellness in schools, workplaces and communities, and takes steps to modernize the public health care system.

**Other:** The law includes provisions to reduce waste, fraud and abuse in the Medicare and Medicaid programs and new reporting requirements are imposed on tax-exempt hospitals. In addition, the law also incorporates several oversight programs including new requirements for physician-owned hospitals.

**HEALTH CARE REFORM MOVING FORWARD**
This timeline provides only a brief description and not every provision is depicted. (We recommend printing the timeline in color.) For a detailed summary of the health care reform legislation, refer to the AHA’s April 19 Legislative Advisory. It is available at [www.aha.org](http://www.aha.org) under “Health Care Reform Moving Forward.” This section of our website features numerous resources and tools to help hospital leaders understand health care reform and inform their board, employees and community about the implications for the hospital.
Assumptions/Notes

- When changes are permanent, they are listed only once in the timeline, followed by “thereafter.”
- Some provisions did not include a specific date within a year. If only a year was listed, it was included in 1st Quarter of the listed year.
- Few provisions did not include any reference to a due date. Those provisions are listed in Appendix A.
- A number of provisions extended previous legislative due dates. The assumed start date for those extensions is the date of enactment.
  Only the expiration date will be reflected in the timeline.
- If a provision began prior to the date of enactment or was a retrospective adjustment, it was included in 2010: 1st Quarter.
- Many items in the timeline have the PPACA and HCERA section numbers listed in parentheses. We encourage you to use these section numbers as a crosswalk to the April 19 AHA Legislative Advisory and the PPACA and HCERA. Assume the section number refers to the PPACA unless noted as HCERA.
